# FIRE SUPPRESSION SYSTEMS

ENGINEERING  
EXCELLENCE

INTEGRATED  
SERVICES

EXCEEDING  
CUSTOMER  
EXPECTATIONS

## Our Services:

Fluiconnecto offers pre-engineered and fully automatic Fire Suppression Systems designed to protect against fire hazards in a wide range of applications, including environments that demand localized suppression solutions. Whether the system extinguishes the fire entirely or suppresses it long enough to facilitate a safe exit for the operator, our priority is to offer reliable and efficient fire protection.

## Your Benefits:

- **Asset Protection:** Fully automatic fire suppression systems ensure equipment is safeguarded.
- **Versatile Application:** Designed for a wide range of industries, including mining, heavy plant operations, and hazardous environments.
- **Enhanced Safety:** Provides suppression solutions to control or extinguish fires, enabling safe evacuation and preventing escalation.
- **System Reliability:** Engineered to minimize faults, ensuring dependable protection when it matters most.

## We Keep It Running In All Segments

Agriculture

Industrial  
Applications

Construction

Mining

Marine

Transport

Oil & Gas

Forestry

Material Handling  
& Logistics

## Fire Suppression Systems:

Fire Suppression Systems ensure swift and reliable response in the event of a fire outbreak, providing a crucial line of defence for valuable assets. The pre-engineered, fully automatic Fire Suppression Systems is an ideal choice for mining machines and other applications that demand localized suppression solutions. The Fire Suppression System operates independently with a control module that includes a backup battery, ensuring full functionality even if the main batteries are disconnected. The System enhances safety by electronically monitoring its circuits in real time. It alerts operators to any faults, enabling proactive responses and maintaining reliable system operation.

## Our Solutions:

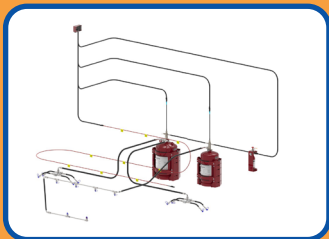

**Electrical Cabinet  
Protection**

**Vehicle Fire  
Suppression Systems**

**Fixed Foam Fire  
Suppression Systems**

**Dry & Wet Chemical  
Systems**

**Hydraulic Connectors**

**Rigid Pipes**

**Direct Clean Agent Fire  
Suppression Systems**

**Fire Extinguishers**

**Indirect Chemical  
Systems**
